

ViSAGE

Spring 2016
Software Update

Report Exportation

Car Usage Reports

From the Fleet Usage tab, Odometer, Amp Hours, Amp Hours per Mile, & Rounds / Hole reports can now be exported into a .CSV file to be viewed in your favorite spreadsheet software such as Microsoft Excel®.

@ Scorecard Email

From the VCC Fleet Scorecards tab, Email addresses can now be exported into a .CSV file.

Health Summary

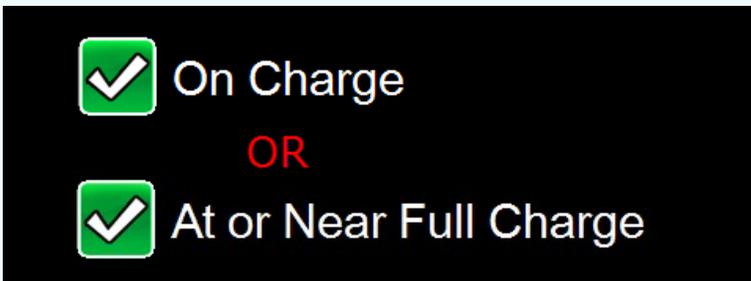

On Charge Battery Status

The VDU Health Summary battery status now emulates the VCC when a car is placed on charge.

If the car is plugged into the charger and phase 1 of the charge cycle is incomplete "On Charge" is displayed.

If the car has entered phase 2 of the charge cycle "At or Near Full Charge" is displayed.

Comet Trails on Hover & Location Reports

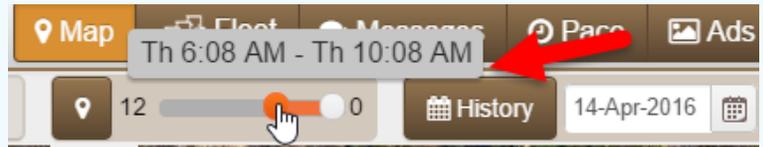

Comet Trails

Comet Trails have been modified to show the WiFi indicator and red and yellow pace indicators when hovering over a car icon on the VCC Map view.

Location Reports

The tooltip for the slider used to filter car track locations, now shows the start time / end times, and 2 letter abbreviation for the day of week when moving the slider.

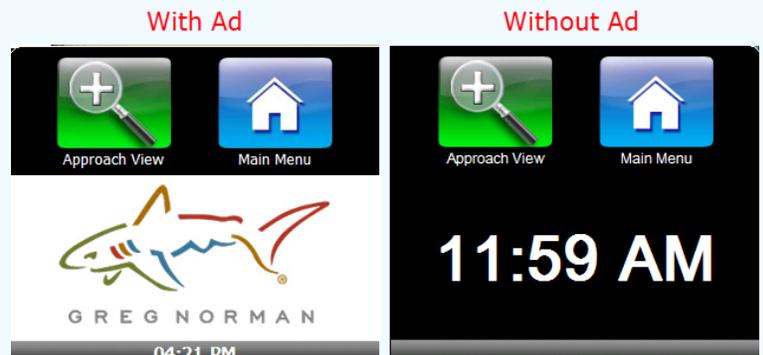

Insert Ad Location

Time

When no insert ad is selected to be displayed, the current time will be displayed in the insert ad location.

When an insert ad is selected to be displayed, the current time will remain in the footer below the ad.
