

# Club Car Connect Screen Maintenance

## Cleaning the Touch Panel

### Supplies

- Microfiber cloth
- Distilled water and vinegar or commercial touch screen cleaning agent

### Steps

- 1) Turn off the device before cleaning it
  - Minimize risk of damaging unit
  - Smudges, dirt, and debris are easier to see when the backlight is off
- 2) Using a microfiber cloth, brush it across the screen in small, concentric circles.
- 3) If any dirt or smudges remain, dampen the cloth with a 50/50 mix of distilled water and vinegar or a commercial touch screen cleaning agent.

## Disinfecting the Touch Panel

### Supplies

- Microfiber cloth
- Isopropyl Alcohol > 75% (bottle or wipes)

### Steps

- 1) Turn off the device before cleaning it
  - Minimize risk of damaging unit
  - Smudges, dirt, and debris are easier to see when the backlight is off
- 2) Dampen a microfiber cloth with 75% or > Isopropyl Alcohol and gently wipe the screen in small concentric circles.

OR

- 3) Using a presoaked 75% or > Isopropyl Alcohol pad, gently wipe the screen in small concentric circles. A microfiber cloth may be needed to gently buff the screen after applying the alcohol.

- Do not apply any liquid directly to the screen itself, only to the cloth.
- If using an alcohol pad to disinfect, make sure not to squeeze an excess amount of liquid out of the pad onto the screen.
- Do not use any paper products or abrasive/rough rags.
