

Visage Software Update – October 2011

An update of the Visage system software is scheduled for deployment starting the week of October 10th, 2011. Your Visage Account Manager will be in contact with you to schedule the update to your cars/VDUs.

Reporting:

There are four new round/pace reports added with this release. Rounds are calculated by any play that Visage considers a valid round of golf and does not have to be 18 holes. Visage reports can be viewed from the VCC or using a web browser at <http://reports.gpsigolfmedia.com> using your VCC username and password.

- **Rounds by Date** – Total number of rounds played per day. If the date range spans multiple months, each month will appear on its own page. The totals at the bottom are for the entire date range, not sub-totals for each page.

New VDU Features:

Marshal Mode:

The Marshal Mode Site Map now identifies Handicap and other Marshal cars by the letters **H** and **M** in front of the car #.

Marshal cars always appear with a gold background color and Handicap cars will have a blue background when on pace. If a Handicap car is 10% or 20% behind pace, they will display yellow or red backgrounds the same as normal cars behind pace.

In addition to the site map, VDUs set to Marshal Mode now offer a tabular view of Pace Status.

Use the menu options to choose the Site Map or the new Pace Status screen.

Columns can be sorted by Car, Hole, Pace, or Player name by touching the column heading. Touch the same column again to change between ascending and descending order. Car numbers use the same color coding for pace as described on the previous page.

Pace Status

Car	Hole ▼	Pace	Thru	Player 1	Player 1
5	15	0:02 Behind	14	----	----
1	15	0:02 Behind	14	Pat F	Ginny C

3	14	0:01 Behind	12	----	----
6	14	0:02 Behind	13	----	----
7	14	0:04 Behind	13	----	----

more ...

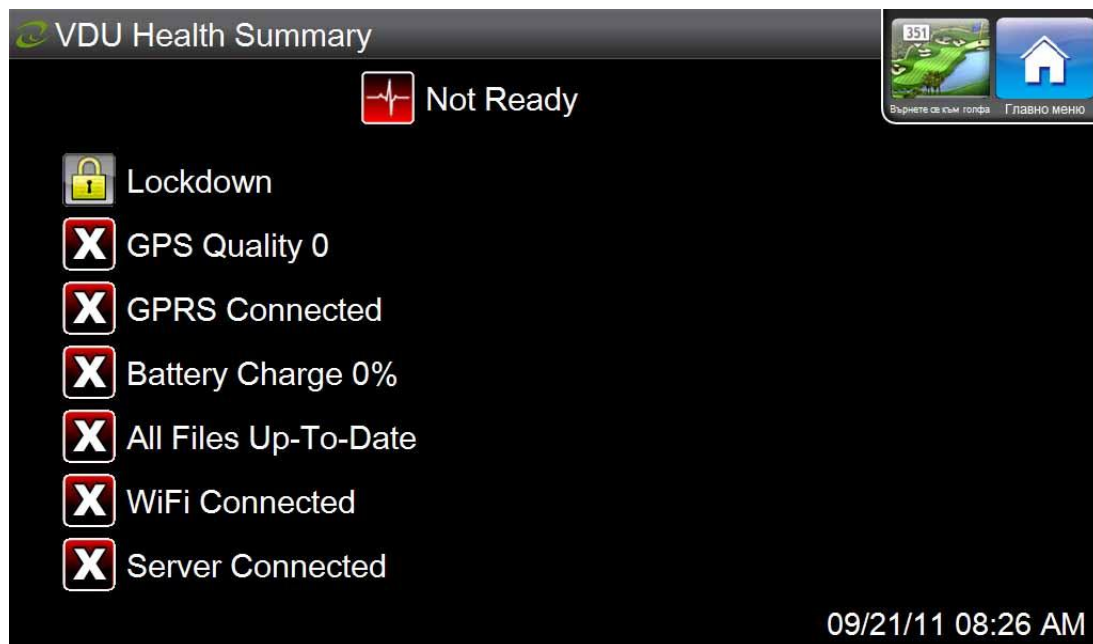

Example marshal mode Pace Status ordered by descending hole numbers

Health Status Screens:

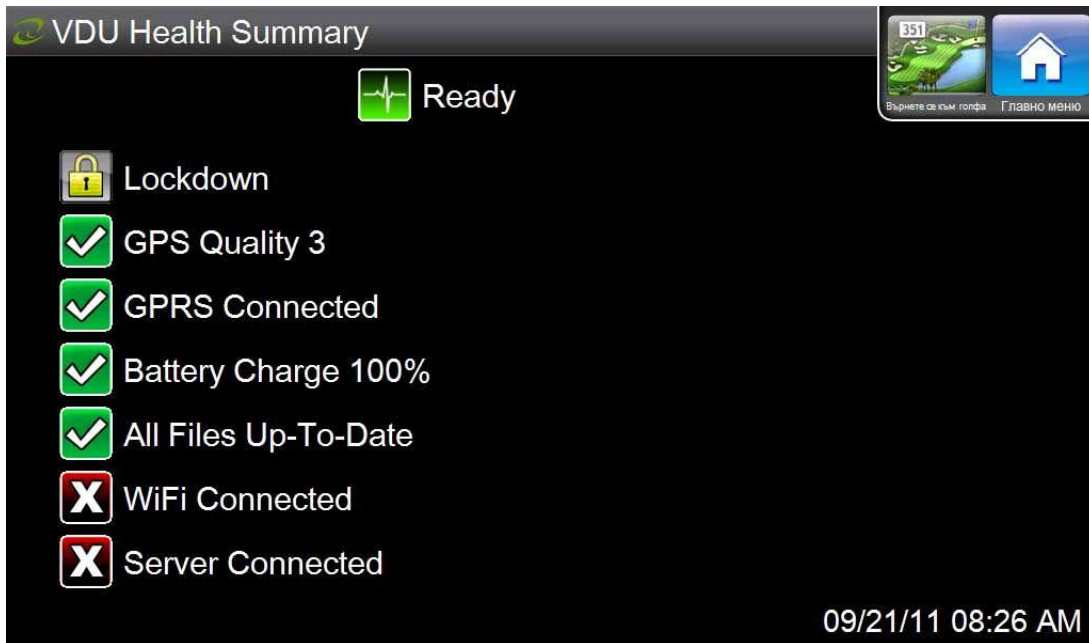

The health status screen has been enhanced and now includes additional system information:

- **Overall Health – Ready or Not Ready for use**
- **Lockdown or Staging (Club Car Only)**
- **GPS Quality**
- **GPRS Connected**
- **Battery Charge Percentage (Club Car Only)**
- **All Files Up-To-Date**
- **WiFi Connected**
- **Server Connected**

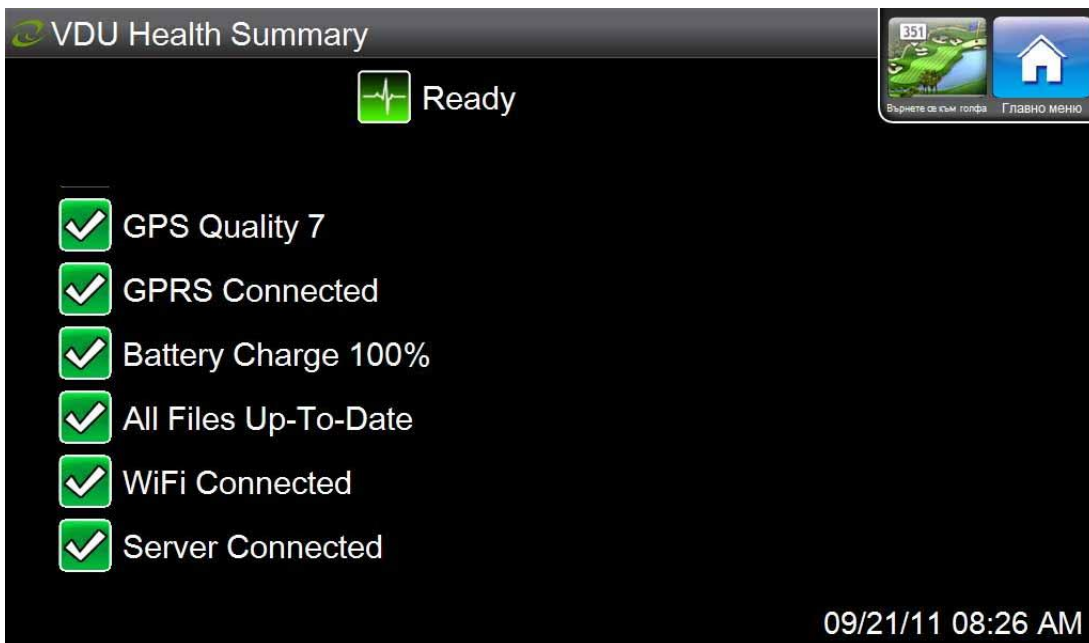

The following example screens show cars at various “health” levels.

VDU is Not Ready and should not be used for golf.

VDU is ready for use but not connected to the Visage WiFi network.

VDU is Ready for use and able to receive updates via the Visage WiFi network.

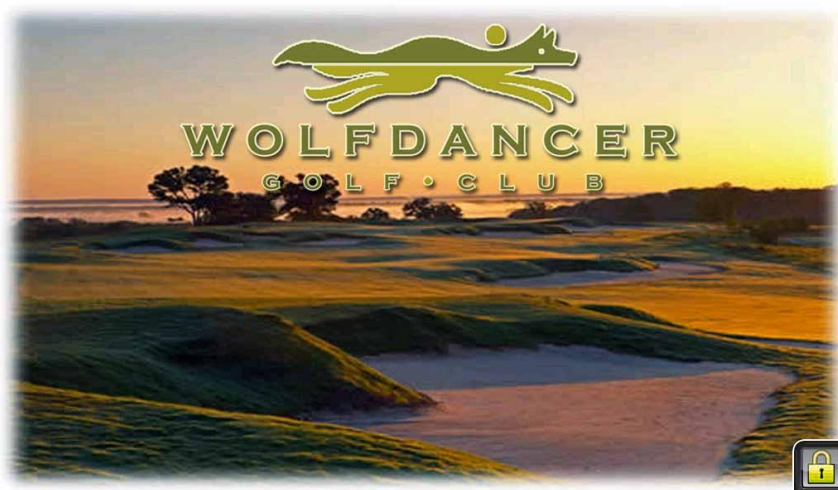

Status Indicators:

The VDU will display status indicators in the lower right corner of the screen

- **Overall Health** – The icon will appear in the lower right corner if the car is Not Ready

- **Lockdown** – If the car is in lockdown a small padlock will appear

- **Staging** – When a car is staged, the VDU makes an audible sound and displays an image of a key for 5 seconds, then resizes and moves to the lower right corner. The small key icon will remain visible as long as the car is staged.

Personalized Background Images

Vision Perfect tournament and flyover/video background images are now customizable. Contact Customer Support to modify these background images.

Weather Warning:

The VDU now plays an audible sound when the Weather Warning image appears and again when it is removed. This will not occur if the car is in the Staging Area.

Visage Splash Screen:

A Visage splash screen now appears when the VDU is powered on.
